John Perdue

Nancy Ruggieri

Sue Sexton

Catena Shortreed

Rufus Sparks, DVM

**Chief Executive Officer**

Lorilyn Shandor

## 2022 BY THE NUMBERS

Last year was a huge year around AWL in all aspects. We had a record-breaking year for intakes, adoptions, and transfers!

Animal intakes into the shelter were 1,645. That is a 61% increase over our 2020 intake of 1,022. Of those animals, 942 came in through our amazing humane department, a 150% increase over our 2020 number of 377. As you can imagine, the majority of the animals coming to AWL are dogs and cats. However, in 2022 we also took in fish, rats, snakes, bearded dragons, and tegus. Just to name a few.

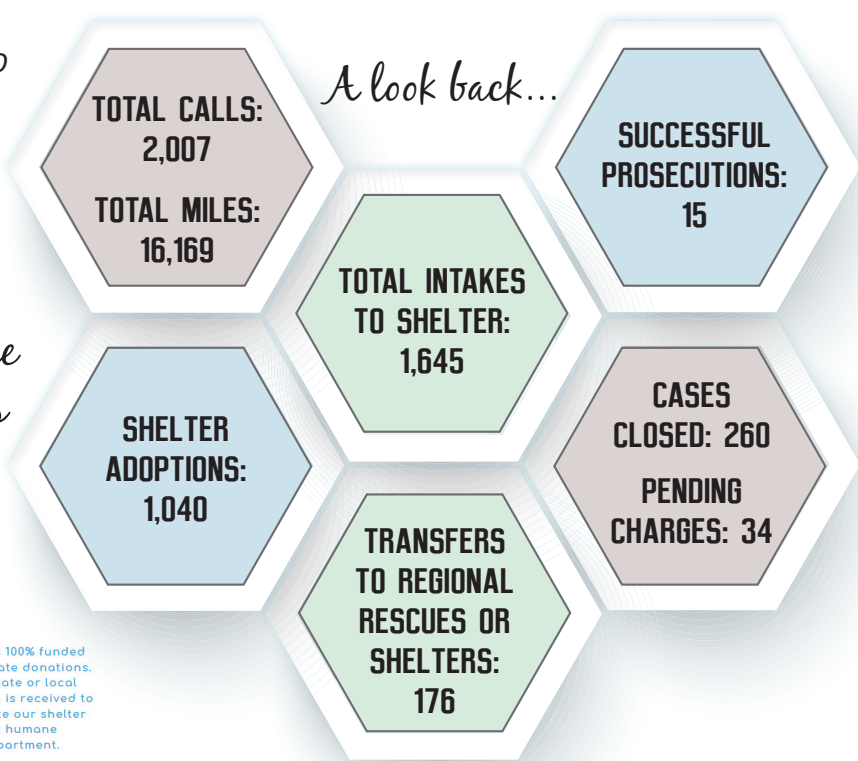

The team at AWL did 1,040 adoptions (up from 860 in 2021), returned 40 lost animals to their owners, and transferred 176 animals to regional rescues and shelters. Our Humane Agents successfully prosecuted 15 cases of animal cruelty and neglect in 2022 with dozens of additional charges pending into 2023. This makes a three-year 100% success rate for our Humane Department in the Trumbull County Court system ensure those that neglect and abuse animals see some level of punishment.

None of this would be possible without our amazing staff and our supporters. Our team is here, in the field rescuing the abandoned, neglected and abused. They are caring for the sick and injured. Being patient with the scared and shut down. You all are here by sharing our stories, providing financial support, and donations of food and other supplies. Thank you. For what you have done and for your continued support as we work on behalf of all of the animals in Trumbull County and beyond.

*Sincerely,*  
*Lori Shandor, CEO*

*2022  
Shelter  
& Humane  
Numbers*

*A look back...*

AWL is 100% funded by private donations. No state or local funding is received to operate our shelter or humane department.

can join us!*

## VOLUNTEER SPOTLIGHT

**KIM SKIBA**

Kim began volunteering with AWL in 2017, inspired by a desire to give back to her community. She had never volunteered at an animal shelter before, but believed handling dogs would be a good fit for her. As a dependable and enthusiastic volunteer, Kim has a passion for helping dogs who are having a hard time with kennel life.

We recently asked her a few questions to learn more:

**Do you have any pets at home?**

*Two dogs, Chase and Gypsy, and a cat, Rascal.*

**Who is your favorite fictional pet?**

*Benji. My childhood dog was named after him and looked a lot like him.*

**Do you have a favorite AWL success story?**

*Molsen! My favorite dog of all time. Molsen was so loving and laid back. I handled him in the Spring Fashion show fundraiser. Molsen had thyroid issues and was at AWL for some time. As his condition began to improve, he was adopted out to a loving home. When his adopter passed away years later, Molsen returned to AWL. Staff and volunteers were all heartbroken for him, but he was quickly adopted into a loving home.*

**What advice do you have for new or prospective volunteers?**

*Find what makes you feel good when you come to volunteer and do it! There's no wrong way to volunteer. I'd recommend volunteering, it's very rewarding. You get a lot out of it. Lots of love and licks in return!*

*Thank you, Kim, for all your hard work!*

## HUMANE DEPARTMENT UPDATE

### Success for Turkey

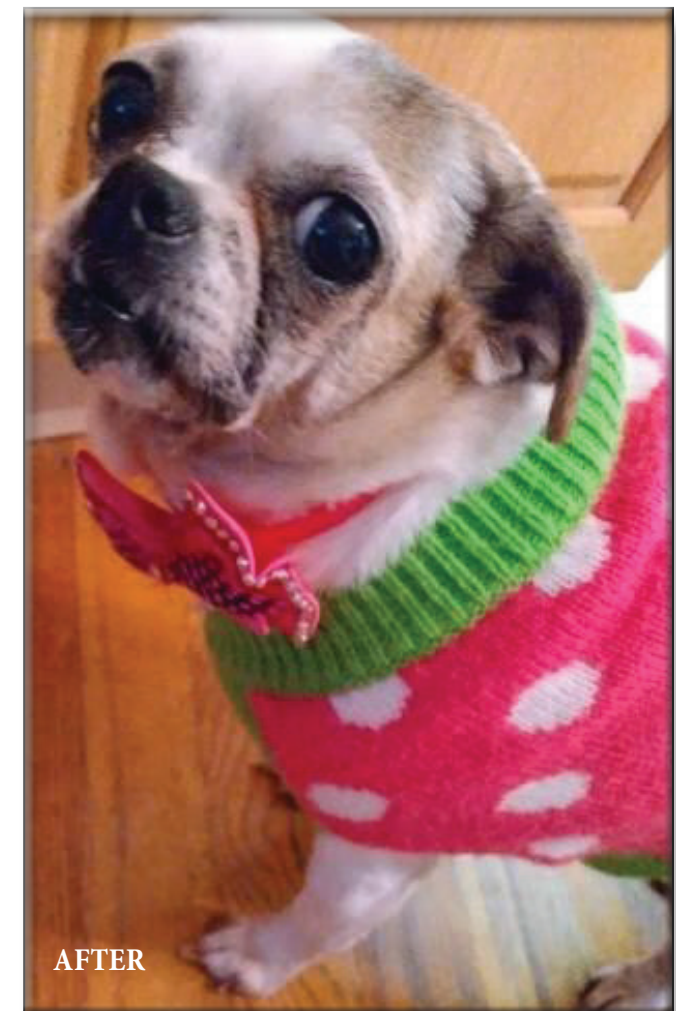

Turkey, lovingly named for the turkey sound she made when left alone in any room, came to AWL through our Humane Department in December of 2021. Humane Agents were performing a routine follow up check on Downs Road in Warren, Ohio when they found the 10-year-old Chihuahua in an alarming state. During a previous visit to the property the owner was instructed to take the dog to the vet to get treatment for fleas and minor hair loss. It was quickly apparent the owner did not follow the orders of our agents and the dog had declined very rapidly.

Turkey had extreme hair loss over 100% of her body and was bald over 70% of that area. She was also underweight. There were multiple open wounds and red, irritated skin showing signs of infection. Her nails were extremely overgrown and live fleas could be seen crawling on her already inflamed skin. Humane Agents removed the dog from the property immediately and transported her to receive veterinary care. After examining Turkey, the veterinarian stated, "testing revealed a severe bacterial skin and ear infection. Without treatment, this severe infection causes suffering and poor quality of life. [Turkey's] nails were very overgrown and impeded her ability to walk normally."

AWL staff took the senior lady under their wings. Performing the prescribed medicated baths, making sure she had an assortment of sweaters and hoodies to keep her warm while her hair regrew, and plenty of treats and love. A few weeks later it was decided the best route for Turkey was to transfer to one of our partner rescues, Animal Pawtectors, to be placed in a foster home while she healed and gained back some confidence. It just so happens, that foster fell in love and has her to this day.

Turkey now goes by Edith and her adopters can't say enough good about her. "She's a wonderful, happy, furry girl these days!" Edie has many kitty friends including "her" 2 kittens, Lucy and CinderElla. She also has some bunny friends whom she loves to sniff and give little licks. Edie insists on sleeping under the covers and prefers the comfort of the electric blanket. She will give any big dog a run for their money when it comes to snoring. Her adopters went on to say, "it took a lot of vet care, love, and patience but she's such a different dog. Her health is great and her confidence is so much better. She doesn't make her turkey howl anymore when we are out of her sight. She just hangs with the cats and naps until we walk back in."

Edie's former owner pleaded guilty to cruelty and neglect of a companion animal. They received 90 days in jail, all suspended with the successful completion of five years of probation. They may not live with, own or possess additional animals during those five years.

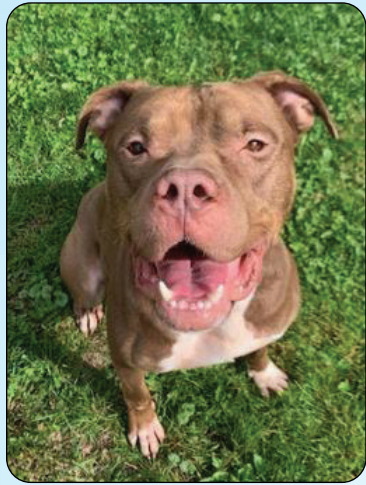

# 5 LONGEST CANINE RESIDENTS

# 5 LONGEST FELINE RESIDENTS

## Meet Rex!

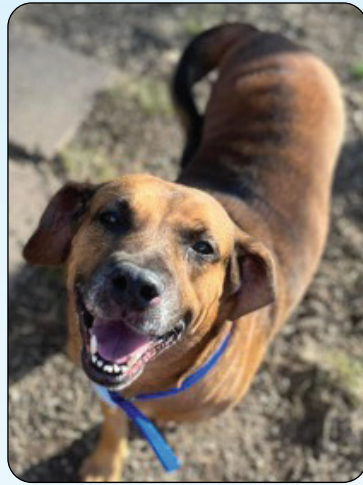

Intake 7/1/22  
Rex is a 3-year-old neutered pitbull mix male. Rex is okay with some dogs, but we do require a meet and greet! He is very goofy and sometimes doesn't realize how large he actually is! He has lots of energy but is very easily entertained. If you are looking for a fun goofy dog, Rex is your man!

## Meet Bandit!

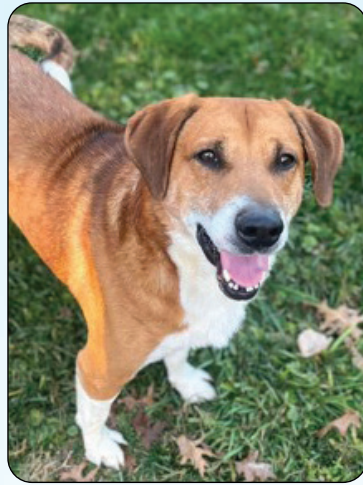

Intake 7/29/22  
Bandit is a 9 years old neutered male. He is a pitbull /lab mix. Bandit is a very happy dog and loves everyone he meets in contact with. If you're looking for him, he can be seen playing hide and seek with his toys. If you're looking for an older dog with lots of personality, Bandit is your dog!

## Meet Doofy!

Intake 9/8/22  
Doofy is a lab/hound mix and approximately 3 years old. He is a neutered male. Doofy is always happy, his tail is constantly wagging around! He's especially happy playing with his favorite toy, a good ole fashioned tennis ball. He is a bit wary of new men, but it doesn't take long to earn Doofy's trust.

## Meet Spencer!

Intake 9/8/22  
Spencer is a 5-year-old neutered hound mix male! Spencer does require that he is the only pet in your home. He is a low-medium energy dog and loves to lounge around. If you are looking for someone to be your couch potato friend, Spencer is your guy!

## Meet Mantis!

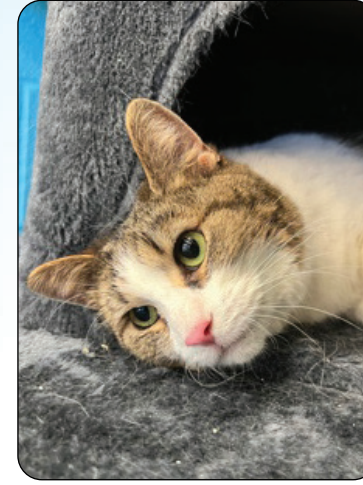

Intake 5/4/22  
Mantis is a 4-year-old spayed female cat. This spicy girl is very playful but would likely do best as the only cat in the home. Mantis can often be seen hopping from one level of her condo to the next while she bats her favorite toy around. For Mantis, every day is a good day if there are plenty of snacks. If you're looking for an active and outgoing kitty, Mantis could be your girl!

## Meet Fox!

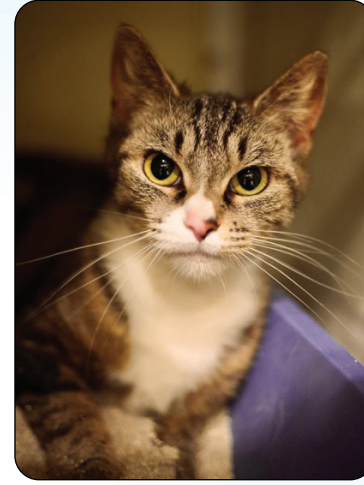

Intake 7/27/22  
Fox is a 8 year old neutered male. Fox can be a little shy at first, but he is very affectionate. Fox is a very friendly cat and gets along well with other cats. If you have a quiet home for Fox to relax in, he may be your guy!

## Meet Cinnamon!

Intake 5/27/22  
Cinnamon is a 4-year-old spayed female. Although Cinnamon used to live with other cats, she would prefer to be the only cat in the home. She is very affectionate and loves spending time with her favorite volunteers.

## Meet Peanut!

Intake 6/2/22  
Peanut is a 3-year-old spayed female. Despite her grumpy face, Peanut is a very friendly cat. Peanut is very easy going and spends most of her time napping the day away. She did live with another cat in her previous home but would most likely do best as the only cat.

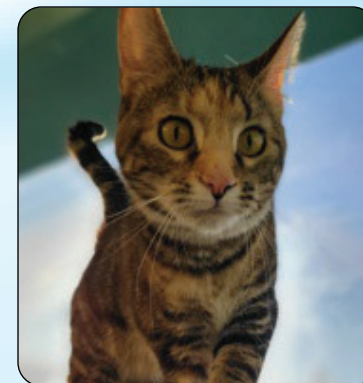

**ADOPTED!**

## Meet Paris!

Intake 9/9/22  
Paris is a 4 year old spayed female. Paris loves her super chewer toys and playing outside! She does require that she be the only pet, and not a great fit for younger kids (12+). If you are looking for a very affectionate dog that likes to be the center of attention, Paris is your girl!

## Meet Milan!

Intake 6/13/22  
Milan is a spayed female, 1-year-old. She is affectionate on her own terms, not a good fit for kids (teens and older are ok). She currently lives with other cats but would be happy as the only cat in the house!

# Foster Season Has Sprung!

By Catena Core

Although it seems like the warm weather will never return to Ohio, Spring is just around the corner, as is foster season. Fostering is when you temporarily house and care for animal(s) that are too young, too small, or too weak to be adopted into their “forever” homes. For kittens to be fixed (before being adopted) they need to be at least 8 weeks old and 2 pounds. During kitten season, kittens under this age and/or weight may enter AWL’s care and won’t be eligible for adoption for several more weeks.

According to the ASPCA (2018), tiny kittens are the most vulnerable during this time because of their weak immune systems, so they need as much attention and care as possible. It’s also good for kittens to get plenty of attention so that they’re properly socialized when adopters come looking for a new addition to their family. Fostering is incredibly important because it gives these tiny animals a better chance at survival and home placement.

Shelters are typically swarmed with calls starting in the Spring and extending into late

Summer from people who find abandoned kittens, pregnant cats, etc. There are approximately 3.2 million kittens entering shelters across the country during this time, and upwards of 860,000 are euthanized because some shelters don’t have the resources necessary to care for these tiny kittens (ASPCA, 2018).

Depending on the animal’s age, fostering will entail time and flexibility, as very tiny animals will need to be cleaned and bottle-fed formula unless momma is still with the litter. For older animals, fostering may include providing different stages of food in addition to giving them plenty of love and attention. The important thing is to keep them healthy and happy while keeping a close eye on their progress to ensure they’re growing.

Fosters need to be kept separate from any other pets in your home, and hand washing before and after handling fosters is vital to keeping all the animals in your home as healthy as possible.

## You could be a great foster.

If you’re interested in fostering with a shelter such as AWL, you can ask for a foster application which the shelter will use to determine if you’d be a match for the process. If it’s a match, you’ll be contacted when the shelter has an animal(s) in the situation you’ve expressed comfort with. For example, if you’re okay with having a momma cat with her kittens in your home, when a momma and babies are available for fostering, the shelter can contact you to see if you’re available to foster them.

Once the animal(s) meet the age and weight requirements to go back to the shelter, they will be spayed/neutered, given all their vaccines, etc. Then, they go up for adoption and find loving homes.

I began fostering kittens for AWL in April 2022. I am a huge cat-lover and it was very important to me and my husband to be a part of the solution by opening our home to fostering. Alex and I fostered a total of 12 kittens that were adopted out through AWL last year. Some came to us with their momma, others were all alone and needed bottle-fed, and some were

already weaned and just needed a place to call home for a few weeks.

We loved every single one of them and always got attached. But I remember that when we adopted our cat Potter from New Lease on Life Rescue in Struthers at 8 weeks old, it was evident he’d been loved by a foster family until he found his loving “forever” home with us, and that gives me the reassurance to know every kitten we fostered has a loving home like ours and that we made a meaningful difference in that one’s life.

People always tell me “I could never do that” when they learn that we foster, and I used to think the same thing. It is very difficult to part ways with an animal you have cared for and loved. But it is so rewarding and worthwhile to know how loved they’ll be. You can do it, and there is so much support out there, especially when fostering through AWL, to get you through it.

Fostering is the most fulfilling part of my life and I wouldn’t give it up for anything.

If you’re interested in fostering, please reach out to Emily at AWL at 330.539.5300 or email [community@awltrumbull.com](mailto:community@awltrumbull.com). If you can’t foster but still want to support fosters, the shelter can greatly benefit from donations such as dry kitten food (Purina Kitten Chow) as well as kitten formula “KMR” (kitten milk replacer) which you can find at Chewy, Walmart, PetSmart, etc.

P.S. Don’t forget to share pictures with us of your pet(s) adopted from AWL on the Friends of the Animal Welfare League of Trumbull County Facebook group. It’s always good to see the animals we cared for loving life outside the shelter!

# Pomegranate welcomed into his new home!

Pomegranate came to AWL through our humane department in October of 2022. His appearance was alarming to say the least but he seemed active. After a trip to the exotic veterinarian it was confirmed what AWL staff suspected. Pomegranate had skeletal abnormalities likely caused by metabolic bone disease (MBD). However, he isn’t in pain and doesn’t have any mobility issues – he just looks funky! MBD is related to improper keeping, including diet and lighting. (Learn more about MBD at <https://dragonsdiet.com/blogs/dragon-care/metabolic-bone-disease-101-keep-your-bearded-dragon-healthy>).

About a month later, Pomegranate was adopted by Ben and Cheryl of Cuyahoga Falls. Here is what they had to say about their experience adopting a special needs reptile.

*“Pomegranate seems to have adapted quite well to his new home. He has a very modest habitat, as he has some trouble getting around, but he is also moving around more and more each day! He has a log he loves to climb on and under, and a nice big flat rock. When I first got him we kept an eye on him a lot, and offered him a special recipe liquid diet along with dubia roaches. Now, he seems more apt to hunt, but I still make sure to give him a lot of the stuff he needs that he missed out on, which led to why he looks the way he did when he was adopted.*”

*The adoption experience was great. Unfortunately, I did have to drive to the shelter twice and I live an hour away. Other than that it was easy!*

*We originally saw Pomegranate’s adoption post on Instagram and were very excited to meet him! We had no reservations about adopting Pomegranate knowing full well from the pictures and our initial meeting that he was special needs. It’s very unfortunate that Pomegranate got this condition. I don’t think many people are aware just how many reptiles suffer similar fates. Pet stores sell lots of things that are marketed for bearded dragons that aren’t good, and can even be harmful to them. People don’t do proper research since bearded dragons are marketed often as a beginner pet. Some people act surprised they require veterinary visits.*

*Pomegranate’s picture just called out to us -- I could tell he was an excellent dragon that just needed a loving home and*

*someone willing to spend a little extra time with him. What made us want to adopt him most is that we follow a lot of reptiles on Instagram and have a lot of friends who have also ended up caring for a special needs reptile. We have another bearded dragon someone offered us when its owners simply didn’t want her anymore. She actually was very well taken care of and healthy.*

*Pomegranate may be...well, weird looking, crinkly, but he has more personality than most. He will hold onto you and has the most beautiful dragon eyes you ever saw. He is still very skinny but has started to put on a little weight, and we hope he is with us for a very long time.*

*We also hope Pomegranate can help raise awareness that reptiles are not just disposable pets or beginner pets, and that bearded dragons require more than just one light bulb and crickets. If anyone would like to follow the adventures of Pomegranate or my other pets, Miss Tobi (another beardie), Wallace (uromastyx), and Darling (turtle), take a look on Instagram @Leviathan\_the\_Dragon.*

Pomegranate is a good ambassador for reminding us of the importance of properly caring for reptiles and other exotic pets. If you are considering adopting any pet, please do your homework before making the commitment. The AWL staff is happy to help you choose the best pet for your lifestyle!

*Thank you, Ben & Cheryl,  
for opening your hearts  
and your home!*

## EMPLOYEE SPOTLIGHT

# MORGAN ESTES

Adoption Supervisor

We are proud to introduce you to Morgan Estes. Morgan started at the Animal Welfare League 8 months ago. She first got involved with us by volunteering her time. She quickly discovered that she wanted more involvement, particularly being able to help our dogs and cats find their forever homes. Morgan is now our Adoption Supervisor.

Let's get to know Morgan a little better:

### What do you like most about the work you do here?

*I love getting to see our long time dog residents going home to their furever families and just getting to hang out with the animals at work!*

### Do you have any pets / how many came from AWL?

*I have 3 pets from AWL, an Australian shepherd, a black kitten, and another kitten.*

### What is the toughest challenge of your job here at AWL?

*My toughest challenge is just the things you see every day and having to keep my composure and come back strong.*

### What is your proudest moment at AWL?

*Long term dog resident Zeus getting adopted. He was adopted as a puppy then found as a stray. He was with us here at AWL for well over 200 days. (Zeus is pictured with Morgan above!)*

### If you could switch your job with anyone else within AWL, whose job would you want?

*I would not switch my job with anyone. I love what I do.*

### If you were an animal, what would you be and why?

*A cat! I am a crazy cat lady and would want to be one of my own cats.*

*Happy to have you with us, Morgan!*

# LET US TURN YOUR UNWANTED STUFF INTO LIFE SAVING CARE!

The Menagerie by AWL has been AWL's single largest source of funding for many years now. In 2022, proceeds from the Menagerie made up 26% of the organization's operating budget. The next largest source was legacy gifts left to AWL in trusts and wills which made up 19%. We consider ourselves very fortunate to have a business that can support our mission in this way!

To ensure we continue to have enough resources to support all of the animals that enter our shelter seeking care and a second chance, we rely not only on the wonderful people who shop at the Howland based thrift store, but on those who donate. Aside from AWL and Menagerie logo merchandise, all items

sold at the store are donated. Whether it is a car load of items left over from a garage sale, a few bags of clothes that you no longer wear, or the coffee pot you just replaced with a newer version...we will turn it into life saving care for the animals at AWL!

We often get asked "what are the most needed items?" and the answer is simple – all of them! However, to get more specific there are a few items that sell better than others and a short list of things we are not allowed to take.

Most popular items:

- Electronics
- Vintage and antique items
- Small furniture
- Books
- Tools
- High-end clothing and accessories
- Baby clothes
- Childrens' toys
- Small kitchen appliances

But don't think it stops there! We will take donations of most gentle used clothing, household items, decor, glassware, seasonal items, board games, and the list goes on and on. If you have something you want to donate but aren't sure if we will take it you can call the store at 330-856-5174. One of our fantastic staff members will be glad to help you!

Donations are accepted Tuesday – Friday from 10 a.m. to 4 p.m. and Saturday from 10 a.m. to 3 p.m., or by appointment.

Items we cannot accept: Damaged items (from water, smoke or mildew, or that are not working/broken), building materials, used cosmetics, guns or ammunition, encyclopedia sets, large appliances, items with a recall or deemed dangerous, and bowling balls.

Donate 🐾 Shop 🐾 Save Lives

# GET TO KNOW MANDY HEATHERLY, THE MENAGERIE STORE MANAGER

Meet Mandy Heatherly! Mandy grew up across the street from the original AWL shelter location on Brunstetter Rd. When she was young, Mandy would go over and volunteer at AWL. Growing up she always had animals, dogs, cats, goats, chickens, bunnies, and a pot belly pig. She has had a life-long love for animals and for thrifting! Her grandmothers and mom would take her to flea markets, antique stores, and thrift stores. She had managed other non-profit thrift stores in the area and jumped at the chance when the position opened that would combine two of her greatest loves, thrifting and animals. Mandy has been with us at The Menagerie since May of 2021.

We asked Mandy to answer a few questions so that we can get to know her better:

### What is your favorite part of working here?

I have so many favorite parts of working here. One is knowing that what I'm doing is helping animals. Others include seeing my regular customers daily and meeting new customers. I also love going through all the donations that are so generously donated by our customers. You never know what will come in the back door!

### What is one thing you wish people knew about your job?

I wish people would know how much it costs to support the animals at the shelter. I also wish people knew that after we pay our overhead at the Menagerie, that every dollar goes to the shelter.

### What accomplishments are you most proud of?

The accomplishment that I am most proud of is that I am a mom of four. I'm proud that I have raised them to be kind, generous and caring human beings.

### Do you have any pets? If so, how many came from AWL?

I have three dogs, Gotham, Emma, and Daisy. Two cats, Ruby and Sasha. Sasha is from the AWL. All my other pets are also rescued.

### What is one thing people don't know about you that they would be surprised to find out?

I think people would be surprised to know that I am a grandmother of four. Ellie (5 years old), Bentley (4 years old), Reagan (2 years), and Luka (3 months).

### If you could switch your job with anyone at AWL, whose job would you want?

I wouldn't change my job with anyone at AWL.

Mandy is pictured with her husband Jim.

*Thank you, Mandy, for your dedication to the AWL!*

# AWL BARK PARK: A Favorite Place for Pets, People

*"Where to begin with our love of [the] Bark Park. It is a park that fits most dogs needs. The wide open spaces of the frisbee park, perfect little park for small dogs, and the front park that is a great spot for watching every car that comes to AWL, (my dog, Olive's favorite thing to do). My two dogs whine with anticipation from the moment I pull into the entrance until they get inside the fenced area. We have met wonderful people and great dogs.*

*What has surprised me the most, is what people that visit AWL gain from the parks. I have had people stop and talk to me about my dogs, talk directly to my dogs, some stop just to watch them play. Many have shared stories of their deceased pet and how watching my two in the park has brought them a smile."*

*Sincerely, Susan Biviano*

THE ANNUAL FAMILY MEMBERSHIP TO THE AWL BARK PARK INCLUDES USE OF ALL BARK PARK PLAY AREAS:

- THE JEANNE TYLER PUPP PUPP PLAY AREA
- THE LIL PUP PLAY AREA FOR DOGS LESS THAN 25 POUNDS
- THE FRISBEE PARK

Proof of updated vaccinations required prior to membership approval.

Annual fee: \$120. This fee supports the animals currently waiting for a forever home at AWL.

ANNUAL MEMBERSHIP TO THE BARK PARK IS FOR A CALENDAR YEAR, JANUARY 1ST THROUGH DECEMBER 31ST. PLEASE CALL 330-539-5300 OR EMAIL DEVELOPMENT@AWLTRUMBULL.COM FOR MORE INFO!

# TRIBUTES (IN MEMORY OF)

February 2022 – December 2022

Tributes to a loved one or a friend say something special about them. The AWL is always deeply honored to be named by someone as their charity of choice. And, when tribute gifts are given, the families also receive a feeling of how much that person mattered. A legacy of caring is one that we all take pride in and can feel good about. Tribute gifts are so important to providing the operations and services of the AWL. So, to those special people, we take a moment to remember them and say thank you for caring. May the wonderful memories of each individual live on in our hearts and in the lives of the many pets they have helped.

# IN MEMORY (BELOVED PETS)

February 2022 – December 2022

*Pets teach us to love unconditionally, to be kind and to be fully present in the moment. When we experience the loss of a beloved pet, our hearts are broken, but we take comfort in knowing that our lives were touched by their love and companionship. Pet tributes are vital to the operations and services of the AWL and there are so many pets that need help. Thank you for your gifts in memory of these special pets and in giving to the AWL to better the lives of our shelter pets.*

Gary & Susan Sexton
